Special Notice

We guarantee our plants to be healthy and true to name. All orders are filled from the same stock, and if the plants are given the proper attention there is no reason why each customer should not meet with the same success.

We absolutely cannot hold ourselves responsible for plants that are sent out in a healthy condition and go wrong for the want of proper attention.

All plants will be knocked out of the pots.

We pack all our plants in damp moss, so that they will reach you in the best possible condition.

We do not pay express or postage on any plants or cut flowers.

We have quit growing and handling nursery stock, confining ourselves to the Florist business only.

Small Baskets ----- \$1.75

Medium Baskets --- \$2.25

Large Baskets ----- \$3.00

Filled with Ferns, Geraniums, Vines, Jew and beautiful growing plants. You should have one of these in your selection.

Carnations

Carnation plants should be repotted whenever there is indication of their becoming pot-bound. Transplanted into the garden after all danger of frost is over, and given at least 12 inches in space, with good soil and cultivation, these plants should furnish abundant bloom from July until late fall or may be kept "pinched back" to retard bloom, potted up at approach of frost and brought inside for winter blooming. 15c each, \$1.25 per dozen.

ENCHANTRESS—The standard shade of shell-pink, by which all other light pinks are measured.

EASTER GREETING—The new ever-blooming pelargonium. The flowers of Easter Greeting have the large size and the gorgeously rich colorings of the "Lady Washington Geranium." To this is added, in Easter Greeting, the habit of continuous blooming, which has made the ordinary bedding Geranium so highly valued. Easter Greeting is the first of a new race and one of the most valuable introductions in recent years. As an Easter plant it rivals the Azalea; but unlike the Azalea, Easter Greeting will remain in full bloom all summer. Each, 25 cents; large, 50 cents.
